

Philadelphia, Pennsylvania – March 30, 2010 – The Academic Evaluation, Feedback & Intervention System—AEFIS travels overseas with its President, Mustafa Sualp, this month to kick off the AEFIS 3.0 European Tour. Mr. Sualp will conduct multiple presentations during his time in Europe beginning in Turkey, where Dr. Tuncay Döğeroğlu, Dean of Faculty of Engineering & Architecture at [Anadolu University](#), will welcome Mr. Sualp. AEFIS will be presented to a large group of faculty eager to learn more about AEFIS 3.0's innovative assessment tools. Anadolu University has "implemented one of the most successful distance education programs in the world," currently educating 930 thousand in its three distance education faculties and has become a model for many institutions.

The AEFIS Team will then visit [Istanbul Technical University](#), whose history stretches over 236 years "providing technical education within a modern educational environment and strong academic staff." ITU has a strong architectural and engineering education reputation in Turkey."

As [AEFIS 3.0 Pilot Program](#) participants, these international partners will ensure innovative development ideas for AEFIS as the web-based assessment solution.

Also to be introduced over the course of the European Tour is the revolutionary [Instructional Decision Support System™—IDSS](#). The IDSS implemented throughout the AEFIS Solution Platform allows faculty to apply real-time student and course information to the continuous improvement of teaching strategies.

About AEFIS

Academic Evaluation, Feedback and Intervention System—AEFIS is the web-based academic assessment management solution that automates best practices in assessment and evaluation in order to enhance curriculum development and streamline accreditation processes.
